RE: Linda McDonald Brainwashing Case

Dear Ms. Burger:

Thank you for speaking with John Lambros and myself on the telephone this date. As we discussed, Mr. Lambros is currently incarcerated.

A little background. Mr. Lambros was arrested in Brazil after indictment by a U.S. Grand Jury on drug trafficking charges. He was detained in Brazil for 13 months before his extradition to the U.S. During that time, he was subjected to various brain washing techniques, including use of a grid room and implantation of electronic devices.

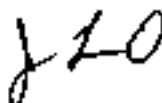

At the present time, Mr. Lambros is organizing a civil suit for injuries as well as making the claim of outrageous government conduct in his prosecution. We have had extraordinary difficulty getting evidence of the torture in Brazil. Any evidence of other use of the same techniques would be helpful, especially if connected with the U.S. government.

Mr. Lambros is familiar with the Linda McDonald case. He understands that a grid room was used on her and others in Canada. Any evidence of that would be helpful. We thought you might have come across such evidence in your discovery and investigation. Also, any mention of Brazil or Argentina as experimental facilities or otherwise could help, as well as evidence of U.S. involvement or funding. I am sure you can understand what we are looking for.

Finally, Mr. Lambros would like to get into personal telephone contact with Ms. McDonald. Please contact her and give her my telephone number. I will accept a collect call at her convenience.

Very truly yours,

Jeffrey L. Orren  
Attorney at Law
